2

Post your role

From your dashboard, add a title, salary and location and hit 'post job'. Your role goes live and you can manage every opening, applicant and interview from one screen.

Live in seconds, on web and in students' feeds

3

Fill out your profile

Build a branded employer page that young people understand — add TikTok-style videos, your values and every live opportunity in one place.

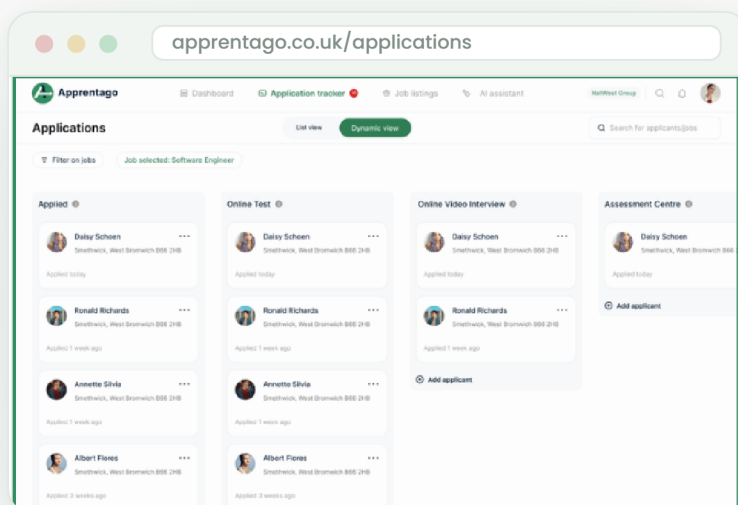

Showcase culture, values and real apprentice stories

4

Track your applicants

Every application lands in your built-in applicant tracking system. Move candidates from applied to hired, schedule interviews and track each applicant's stage as you go.

✓ One-click moves. No spreadsheets, no chasing

5

Hire your apprentice

Send offers and onboard your new starter. From first post to signed offer, everything happens in one place.
